## To Each *Hoffman* Seed Patron:★

These changes are not made because we like to make them. . . . but because we are forced to. . . . Markets are higher, with supplies way short. . . . sales are heavy. . . . Our firm—like most all others—has had but small supplies of these grass seeds. . . . We have had to buy often. . . . Each new purchase costs more money. . . . All early-bought, lower-priced seed has now been sold. . . . Nothing remains but to advance prices. . . . Earlier quotations—even though made but a few days ago—must hereby be withdrawn.

**Prices on Seed Wheat—Rye—Barley—remain same as quoted August 31, 1934.**

★

*Get 5 to 8 extra bushels of wheat per acre next harvest. Sow Hoffman's Seed Wheat. . . A gain of just 1 extra bushel will repay your seed investment.*

Sincerely,

**A. H. HOFFMAN, Inc.**

Landisville, Penna.
